Certification director

dr. Szabó István
Managing director

* Considering the fact that both the ETSI TS 102 176-1 V2.0.0 and its resultant decisions HL-21917-9,10,11,12,13,14/2008 by the Hungarian National Communications Authority do not recommend RSA 1024 and SHA-1 algorithms for electronic signatures from 2009, in case the National Communications Authority prohibits the usage of these algorithms with these parameters or specific data will be published disclosing the weaknesses of them, then the Certification Authority will withdraw the validity of this certificate.
